

## COMMERCIAL.

## EASTERN MARKETS.

Money, Stocks, Grain and Cattle  
New York, September 15.—Bar silver, 104.

New York, September 15.—The stock market was more active; but a weaker feeling prevailed. Prices declined 1/2 to 3 per cent. Coal stocks were weakest, on renewed rumors affecting the combination.

Stocks continue weak. Various unfavorable rumors have been circulated. It was reported that a prominent Wall Street institution was in trouble, but this was subsequently denied. It was also rumored that the St. Paul dividend will be reduced, and that the disruption of the Atlantic coal combination is imminent.

New York, September 15.—Government bonds steady; railways lower. This was a dull day for the bears at the Stock Exchange. From the opening until the close of business the market was depressed, and under sales for both accounts the prices dropped 1/2 to 3 per cent. with coals and grangers as the weakest shares. It is stated that three prominent banks were in trouble, and that \$1,000,000 of clearing house certificates had been issued to one institution in question. Upon investigation these reports were pronounced false. Coal shares were affected by statements that the combination was in danger. It was also reported that the St. Paul dividend would be reduced to 3 per cent. These unfavorable reports had the effect of bringing out considerable long stock, which materially aided to depression. Northern Pacific preferred and Louisville & Nashville were comparatively steady. Compared with the Saturday closing, prices are 1/2 to 1/4 per cent. lower.

New York, September 15.—Mining shares are almost entirely neglected. Sales said at 19.

New York, September 15.—Petroleum steady; Unifed 75 1/2.

Chicago, September 15.—Wheat—Weak, easy, stronger at middle; the season closed about the same as Saturday; 73 1/2 cash; 73 1/2 September; 75 1/2 10% October; 76 1/2 November; 78 1/2 December.

Corn—Stronger; 54 1/2 cash September; 54 1/2 October; 44 1/2 November; 38 1/2 December.

Oats—Firm; 25 September; 25 1/2 October; 25 1/2 November.

Whisky—15.

Chicago, September 15.—Hogs—Receipts 80,000; dull; closing at 5 to 10 lower; rough packing, 5.30 @ 5.55; packing and shipping, 5.80 @ 6.25; light, 6.30 @ 6.15.

Cattle—Receipts 6,000; brisk; firm; 10 higher; good to choice shipping, 6.30 @ 6.40; common to fair, 4.75 @ 6.00; common to medium cows and mixed, 2.50 @ 3.25; fair to good, 3.50 @ 4.25; stockers, 3.25 @ 4.00; feeders, 4.00 @ 4.50; range cattle, 10 higher; Texas, 3.90 @ 4.75; Wyoming, 5.00 @ 5.50.

Sheep—Receipts 1,000; firm; good grades scarce and wanted. Inferior to fair, 2.50 @ 3.25; medium to good, 3.25 @ 4.25; Texas and Nebraska 2.50 @ 3.75; mostly 3.20.

A special from Liverpool to the *Times* Journal quotes the best American cattle 15 1/2c per lb., dressed; best sheep at 17 1/2c; supplies large.

Big Failure.

Rockford, Ill., September 15.—N. C. Thompson's bank closed this morning. A notice posted on the door of the bank, and signed by N. C. Thompson, president, stated: "Owing to the stringency of the money market, I am unable to meet by obligations as they mature, and am compelled to suspend. My assets belong to my creditors until their demands are satisfied. Believing, from common experience, that an assignment would result in unnecessary loss to my creditors, I have determined to apply my assets directly to satisfy my liabilities." The liabilities are stated to be \$500,000. The assets include stock in the W. Thompson manufacturing concern, and are believed to be sufficient to cover all liabilities.

Da Tell.

Ottawa, September 15.—Several members of the party of British scientists of the Rocky Mountains, had a narrow escape from a fearful death on Friday. While exploring the railway tunnel below Kicking Horse Lake four miles, the tunnel suddenly collapsed, precipitating an immense mass of rock in the midst of the party, two of whom were slightly injured. The geologists have obtained data by which they expect to be able to finally establish the exact age of the mountains.

## HOME MARKETS.

To Farmers, Miners and General Dealers: All quotations given in this column are corrected daily from a careful inspection of the different markets; prices quoted are at wholesale rates, and retail buyers must expect to pay a somewhat higher figure:

No Doubt.

CHICAGO, September 15.—The report published in the *Tribune* this morning to the effect that pneumonia had attacked a herd on the farm of John V. Farwell, near Lake Forest, is declared to be untrue by Mr. Farwell. He declares that the attempt apparently making to create a scare about pleuro pneumonia, with the view of securing a large Congressional appropriation for investigation purposes.

## BAPFLED!

One of the most Unaccountable and Dangerous of Recent Decets Discovered and Exposed.

There is some mysterious trouble that is attacking nearly everyone in the land with more or less violence. It seems to steal into the body like a thief in the night. Doctors cannot diagnose it. Scientists are puzzled by its symptoms.

It is, indeed, a modern mystery. Like those severe and vague maladies that attack horses and prostrate nearly all the animals in the land, this subtle trouble seems to menace mankind. Many of its victims have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A strange sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load upon the stomach; sometimes a faint all-gone sensation is felt at the pit of the stomach, which food does not satisfy. The eyes grow sunken, the hands and feet feel clammy at one time and burn intensely at others. After a while a cough sets in, at first dry, but after a few months it is attended with a greyish colored expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. He becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a peculiar whirling sensation in the head when rising up suddenly. The bowels become costive, and then, again, outflux intensely, the skin is dry and hot at times; the blood grows thick and stagnant; the whites of the eyes become tinged with yellow; the urine is scanty and high-colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is often attended with palpitation of the heart. The vision becomes impaired, with spots before the eyes; there is a feeling of prostration and great weakness. Most of these symptoms are in turn present. It is thought that nearly one-third of our population have this disorder in some form or other. Its varied forms, while medical men have almost wholly mistaken its nature. Some have treated it for one complaint; some for another, but nearly all have failed to reach the seat of the disorder. Indeed, many physicians are afflicted with it themselves. The experience of Dr. A. G. Richards, residing at No. 408 Tremont street, Boston, is thus described by himself:

"I had all those peculiar and painful symptoms which I have found afflicting so many of my patients, and which had so often baffled me. I knew all the commonly established remedies would be unavailing for I had tried them often in the past. I therefore determined to strike out in a new path. To my intense satisfaction I found that I was improving. The dull, stupid feeling departed and I began to enjoy life once more. My appetite returned. My sleep was refreshing. The color of my face which had been a sickly yellow gradually assumed the pink tinge of health. In the course of three weeks I felt like a new man and knew that it was wholly owing to the wonderful efficiency of Warner's Peppermint Cure. The Best, which was all the medicine I took."

Doctors and scientists often exhaust their skill and the patient dies. They try everything that has been used by, or is known to, the profession, and then fail. Even if they save the life it is often after great and prolonged agony. Where all this can be avoided by precaution and care, how insane a thing it is to endure such suffering! With a pure and palatable preparation within reach, to neglect its use is simply inexcusable.

Renew Your Age.

At first how? that is the question. In the first place, ladies! discount twenty years from your actual age, by giving a youthful transparency to your complexion with GLENN'S SULPHUR SOAP. You can do it; there is no mistake about it; and with absolute safety, too, for the preparation contains no injurious matter. Beware of counterfeits. See that "C. N. CUTTER'S, Proprietor," is printed on each packet, with out which none is genuine. Sold by all druggists at 25c; three cakes, 60c. Then if your hair be tinged with gray, take off another ten years by converting it into a splendid brown, with HILL'S LINTOX-TANEOUS HAIR DYE, which has the double advantage of being the cheapest and best dye in the world.

PRICKLY ASH BITTERS

The majority of the ill-effects of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irrregular and sluggish action of the bowels, Headache, Sickening of the Stomach, Pain in the Back and Loins, etc., indicate the Liver to be at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially recommended for this purpose. They are mild in their action and effect a permanent cure; are pleasant to the taste and taken easily by both children and adults. In accordance with directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Biliousness, Kidney troubles, etc. As a Blood Purifier they are superior to any other medicine cleansing the system thoroughly, and imparting new life and energy to the body. It is a medicine and not a toxicating beverage.

ASK YOUR DRUGGIST FOR PRICKLY ASH BITTERS, and take no others. PRICKLY ASH BITTERS CO., SOLE PROPRIETORS, St. Louis and Kansas City, Mo.
